Education

Vellore Institute of Technology, Vellore 2022 – Present
B.Tech in Electronics and Communications Engineering with specialisation in Biomedical *Vellore*
CGPA: 8.61

DAV Boys Higher Secondary 2020 - 2022
*Higher Secondary School, **AISSE** - 91.2%* *Chennai*

Jawahar Vidhyalaya 2007 - 2020
*Senior Secondary School, **AISSCE** - 92.4%* *Chennai*

Skills

Softwares: MS Office Suite, Visual Studio Code, MATLAB **Programming Languages:** Python, SQL, Java

Languages Known: Tamil, English, Hindi

Experience

Aries Biomed June 2024 – July 2024
Embedded Systems Intern — Biomedical Devices · *Coimbatore*

- Designed a Qt-based GUI on STM32 Board to simulate ECG visualization and Yocto Linux. Worked closely with the QMS team during medical device component development, reviewing documentation, validation, and compliance requirements aligned with ISO 13485 standards.

RC Studios Feb 2024 – May 2024
Technical Project Intern · *Remote*

- Managed a team of three to deliver an IT project for a livestream platform, including designing a dashboard to monitor key livestream metrics. Coordinated development timelines, oversaw API integrations and ensured extensive use of GitHub-based version control and structured project execution.

Positions of Responsibility

Vice Chairperson — SOLAI Club

- Coordinated and conducted multiple technical events with participation from 100+ attendees. Actively involved in board-level discussions, planning initiatives, and overseeing event execution. Developed effective team management and leadership skills through coordinating teams and managing end-to-end event execution.

Research Projects

Automated Controller for Irrigation System Feb 2024 – July 2024

- Designed and deployed an automated irrigation controller using soil moisture sensors, water level detection, GPS, and Bluetooth relay communication. Integrated a custom Flutter-based app and API, with findings published in the AIIoT Conference [Link].

Awards

- **First Place** — SPIC Hackathon - IAC(2026) ; Built AgroMetrics, a Flutter application for farmers (GraVITas, 2023).
- **Runner-up** — HackWars (Best AI Implementation, 2025) ; Pixels and Paths (Design Competition, 2024).

Certifications

Data Science — IBM

Software Testing — National Learning
